## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 1-23 and 25 are allowed.

The following is an examiner's statement of reasons for allowance: The primary reasons for the indication of the allowability of claims 1-23 and 25 are:

Regarding claims 1-9, 11-15, 19-22, 26 and 27 is the inclusion therein in combination as currently claimed of the limitation of a pivotal interconnection of the second part of the toggle mechanism to the first part of the toggle clamp mechanism has a rotational midpoint spaced further from an engagement point of the toggle clamp mechanism with the face of one of the closure members that on either side of the rotational midpoint.

Regarding claim 10 is the inclusion therein in combination as currently claimed of the limitation of said body portion of the second part of the toggle clamp mechanism has a face extending generally transversely of the operating tab and/or lever and serving as a release member against which is applied a force to release the toggle clamp mechanism from the clamped position.

Regarding claims 16-18 is the inclusion therein in combination as currently claimed of the limitation of said at least one resilient element is relatively displaceable with respect to an adjacent one of the closure members so as to reduce the effective dimensions of the openings through which the first part of the toggle clamp mechanism passes whereby to obstruct withdrawal thereof.

Regarding claim 23 is the inclusion therein in combination as currently claimed of the limitation of the first part of the toggle clamp mechanism comprises an elongated rod having a T-shaped end.

Regarding claim 25 is the inclusion therein in combination as currently claimed of the limitation of a toggle mechanism wherein the clamp does not project beyond an outline defined by the closure members in the closed position or the release position.

These limitations are found in claims 1-23 and 25, and are neither disclosed nor taught by the prior art of record, alone or in combination.
